1. INTRODUCTION

In 2011, the United States Congress passed the Hoover Power Allocation Act (“the Act”) (125 Stat. 777), which sets forth terms and conditions for contracts for delivery of Hoover power beginning October 1, 2017. In addition to authorizing the offering of new fifty year contracts to current federal Hoover power contractors such as the Commission, the Act also created a pool of Hoover power resources to be provided to new allottees who do not currently receive Hoover power, under a new Schedule D.

The Act directs the Commission to allocate 11,510 kW of capacity and 25,113,000 kWh of energy to Nevada new allottees. In order to carry out this responsibility, the Commission pursued legislation in the 2013 session of the Nevada legislature to obtain authority to provide electric services to the Schedule D new allottees. This legislation was approved and the Commission’s new authority is contained in Nevada Revised Statutes (“NRS”) 704.787.

Following the enactment of these amendments to NRS 704.787, Commission staff developed proposed revisions to the Commission regulations contained in Nevada Administrative Code (“NAC”) Chapter 538, to provide for the proceedings to be conducted to allocate Schedule D power in Nevada. These proposed revised regulations were approved by the Commission on June 10, 2014 and by the Legislative Commission on June 23, 2014, and await codification. A copy of the portions of the revisions to NAC Chapter 538 which apply to the development of Schedule D allocation criteria, are attached to this Order as Exhibit A.

Pursuant to NRS 538.161, the Commission represents and acts for the State of Nevada in the negotiation and execution of contracts for the purchase of Hoover power “for the greatest possible benefit to this state”.

The Commission staff developed the proposed Hoover Schedule D power allocation criteria and application form through a public process which included publication of proposed allocation

criteria and application form and conducting public meetings in Pahrump, Overton and Las Vegas to provide interested persons the opportunity to actively participate and submit comments.

Commission staff also informed the public regarding this process by making documentation regarding this process available to the public on the Commission's Hoover allocation website at www.crchoovertimeallocation.com, which includes: notices of public meetings, meeting materials and sign-in sheets, written comments, meeting minutes, written questions and Commission staff responses, and the proposed criteria and application form.

The purpose of this hearing is consideration, possible amendment, and adoption, of the proposed allocation criteria and application form for the Commission's allocation of Schedule D power to Nevada new allottees.

2. SUMMARY

The Commission approves, and will utilize in its future consideration of applications for Schedule D Hoover power, the allocation criteria and application form proposed by Commission staff that are set forth in Exhibit B, except as amended in Exhibit C.

3. PROCEDURAL HISTORY

- On August 25, 2014 Commission staff issued and posted the Notice, Agenda, Proposed Allocation Criteria and Application.
- On September 11, 2014 Commission staff held public meetings in Pahrump and Las Vegas, Nevada.
- On September 12, 2014 Commission staff held a public meeting in Overton, Nevada.
- Commission staff accepted oral and written comments by the comment deadline of September 17, 2014.
- Between September 11 and October 22, 2014 Commission staff answered questions and considered comments received to develop the proposed allocation criteria and application for Commission approval.

4. PROPOSED CRITERIA

The allocation criteria and application form proposed by Commission staff following the procedural steps identified above are set forth in Exhibit B.

Commission Discussion and Findings

The Commission approves the allocation criteria and application form proposed by Commission staff in Exhibit B, as amended by the Commission in Exhibit C, and finds that utilization of these criteria and this application form for allocation of Schedule D Hoover power will serve "the greatest possible benefit to this state", as required by NRS 538.161.

All comments and questions submitted to Commission staff regarding proposed allocation criteria prior to the issuance of this order have been considered and accepted or rejected in whole or in part, in preparation of this order.

Therefore, it is ORDERED that:

1. The Schedule D allocation criteria and application form set forth in Exhibit C are APPROVED.

2. The Commission will utilize the Schedule D allocation criteria and application form set forth in Exhibit C in its future consideration of applications for Schedule D Hoover power.

By the Commission,

George F. Ogilvie III
